

Recent literature on the botany of Iceland II.

HÖRÐUR KRISTINSSON

Náttúrugripasafnið á Akureyri, P. O. Box 580,
Akureyri, Iceland

This list contains recent additions to the botanical literature of Iceland published last year in this journal, covering the period 1968–1972.

The manuscript has been examined by prof. Áskell Löve, Bergþór Jóhannsson, Einar I. Siggeirsson, Eyþór Einarsson, Helgi Hallgrímsson and Karl Gunnarsson. I thank these persons for their additions and useful romments.

ACKNOWLEDGEMENTS

The author is very grateful to Bergþór Jóhannsson, Museum of Natural History, Reykjavík, for his assistance in classifying these samples.

The above findings are a part of a research, which was supported by the U. S. Atomic Energy Commission (contract AT (11-1)-3531) through the Surtsey Research Society, Reykjavík.
